Professional Wealth Management Process[™]

1

Initial Financial Meeting

I first listen to you to learn more about your financial picture, goals, and investment history. You will learn about how I engage my clients.

2

Financial and Portfolio Analysis

I spend time analyzing your financial picture and formulate key planning items to discuss. Morningstar[®] Associates software is used to analyze your current holdings, asset allocation, and fee structure.

3

Aggregate Information Gathering and Proposal Generated

Feedback is provided to you from our analyses. A risk assessment questionnaire is completed with you in order to generate appropriate recommendations and a Wealth Management proposal.

4

Implementation

An advisor managed portfolio is established and financial objectives set as a result of steps 1, 2, and 3.

5

Ongoing Support and Regular Strategic Meetings

You and I reach an understanding on how many personal meetings will be conducted each year to review your financial picture, goals, and portfolio. You have 24-hour-a-day worldwide access to your portfolio online, as well as personal support from the service team in my office.

“I view it as a privilege and responsibility to serve others with my time, talent, and resources for the greater good.”
