

Generic Preventative Medications

Preventative medications can be an important part of maintaining good health and preventing more serious health issues in the future when taken as prescribed.

To help make this as easy and affordable for you as possible, your plan sponsor has worked with SmithRx to develop the preventative medication list. This preventative drug list is periodically reviewed and updated and contains a list of medications that are not subject to the deductible.

Have questions? Please refer to your plan document or call our Member Support Team at 844-454-5201 and we would be happy to help!
